

# DiScienza

Science&Technology engagement

# To encourage e promote dialogue between technology and society

DiScienza offers marketing and communication services for the world of science and technology. We develop educational activities and new formats aimed to stimulate curiosity and cooperation

A flexible team that loves to work close with their many partners

# EDTECH

## SCIENCE AND TECHNOLOGY FOR LIFELONG LEARNING

### EdTech

We design and develop educational exhibit and learning experience to encourage a conscious approach to science and technology.

We love to promote creativity, collaboration, computational thinking and problem-solving

### Citizen Science

We believe that the formation of a scientific citizenship is the key to the future

# MAKER FAIRE ROME

## SPARK - LIGHT ON EDTECH 2019

---

**Three full days dedicated to Education technologies and the future of learning**

A section to give space to an exchange of best practices between all the key figures in the world of education. More than 20 speakers from all over the world and hundreds of visitors.

# ARDUINO

## ARDUINO DAY

### 2011-12-13-14

---

**First Italian national event dedicated to the popular prototyping platform**

A day of talks, exhibits and workshop designed to let meet the Arduino community and to engage people with technologies 4.0.  
Following an open source approach to foster making activities

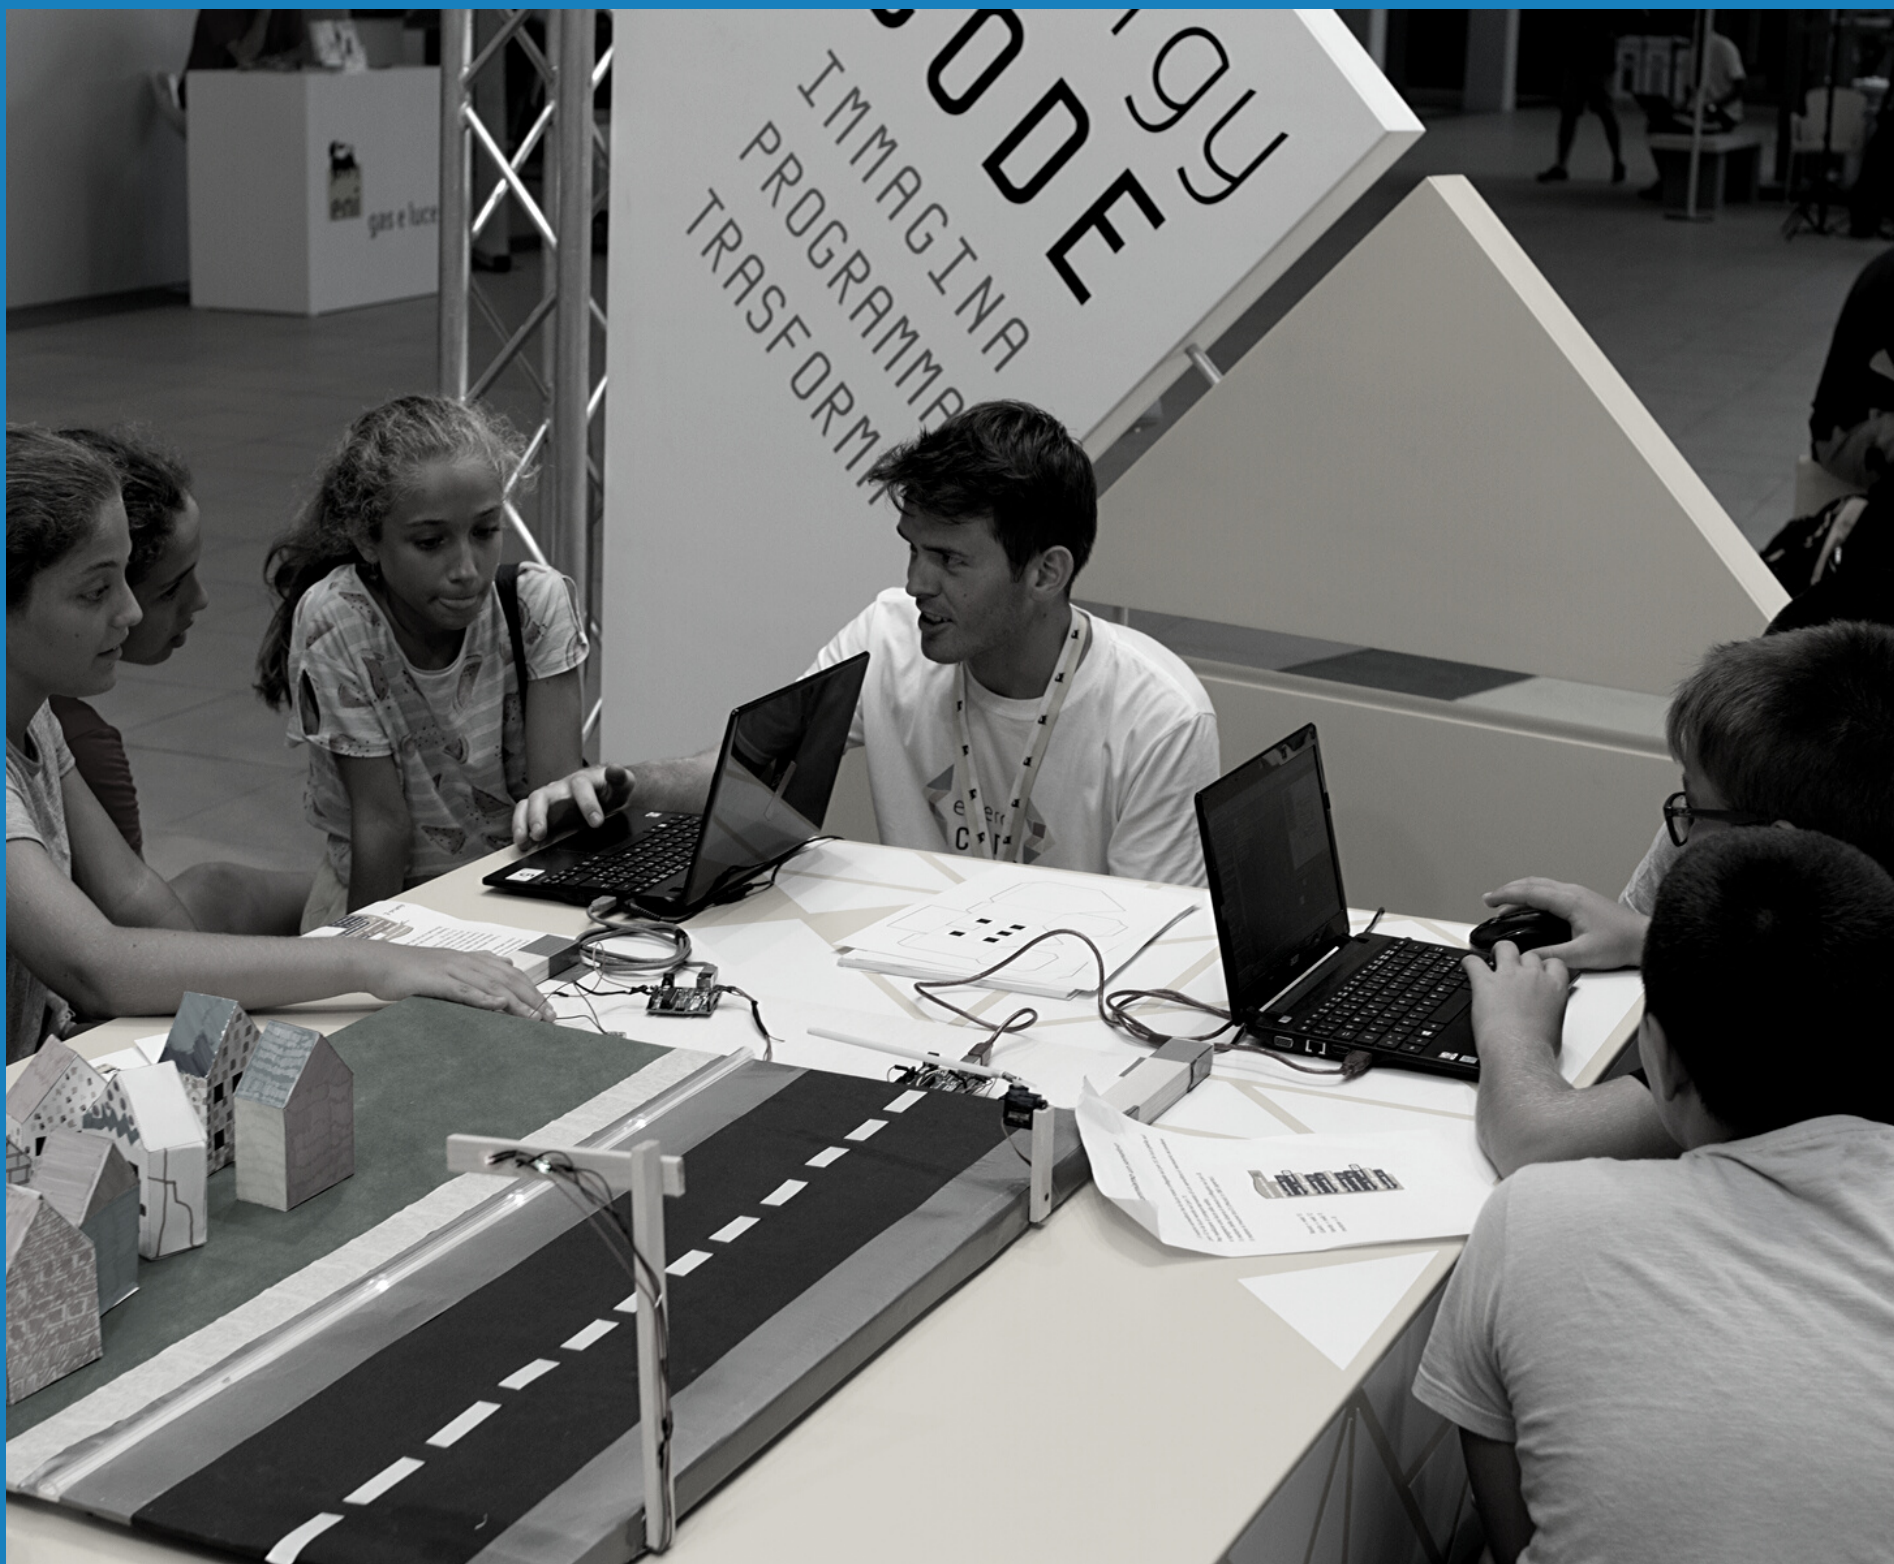

# TRENITALIA

and families**

Coding and hands on experiences aimed  
to stimulate reflections on sustainable  
mobility and new technologies for  
transportation  
4 interactive exhibits

**ENI**

## **CATERRADUNO & MEETING DI RIMINI 2018 - 2019**

**Interactive desk for families about  
science and technology  
on circular economy**

Interactive desk with workshop to  
encourage people to solve  
science problems with hands on  
approach. More than 10 activities for 860  
participants

# EVENTS & SCIENCE FESTIVALS

**SINCE 2009**

---

**Dozens of exhibits and educational activities for children, kids and teachers**

We participated as guests in all the main scientific festivals in Italy (Festival delle Scienze di Genova, Bergamo Scienza, Notte dei ricercatori, etc.), collaborated in the creation of Codemotion kids and worked with many schools

# OPEN INNOVATION

## THINKING OUT OF THE BOX OF YOUR BUSINESS

UNEXPECTED SOLUTION TO GET  
THE BEST OUT OF YOUR TEAM

### Open ideas

We have a strong experience in designing highly engaging educational activities for children, teenagers and families.

We have started to successfully drive this experience in business contexts with the aim of increasing creativity and analytical spirit through collaboration and hands on activities.

### Let it grow

Developing Open Innovation projects means opening up to challenges and opportunities that are not closed within company boundaries.

**ENI**

## **SIX LEGGED HACK 2018 - 2019**
